To: Chief Deputy of Corrections Kevin Stuart

From: Lieutenant Abigail Belangeri

Date: February 9, 2023

Subject: PREA Annual Report

Chief Stuart,

I have completed my review of the Brazos County Detention Center sexual abuse data. During the review I did not notice any significant changes in the number of reports of sexual abuse. Sexual harassment incident reporting numbers have been consistent over the last 3 years.

Our staff appears to be doing a good job of identifying and confronting inappropriate behavior. Identifying and responding to issues when they first surface only helps our agency identify potential abusers and therefore helps us reduce the potential for sexual abuse.

I recommend that we continue our efforts to make PREA compliance a priority. I'm particularly impressed with the security shifts addressing PREA standards and information during their shift briefings. It is obvious they are well versed in the PREA incident response and reporting processes.
